OBJECTIVE

Aspiring Software Developer with experience in web and mobile application development. Skilled in C++, React, React Native, and database technologies, with a strong interest in software engineering and product development.

EDUCATION

B.Tech Information Technology, College of Engineering Guindy, Anna University, Chennai 2022 – 2026

INTERNSHIP

NDIMES Technologies May 2026 – Present
Software Development Intern

- Analyzed requirements and developed new application features, enhancing functionality and improving user experience.
- Contributed to full-stack application development using React and React Native, implementing and integrating features across the frontend and backend.

PROJECTS

- **AutoGuide – AI-Based Project Monitoring and Mentoring System** Dec 2025 – Mar 2026
| Python | NLP | LLM | CrewAI | 🌐
 - Built an AI-driven system to monitor and evaluate software projects using proposal and repository analysis.
 - Designed a CrewAI-based multi-agent architecture with Repository, Progress, and Mentor agents for modular task execution.
 - Implemented shared-memory communication for efficient information exchange between agents.
 - Developed a coordinator module for dynamic agent orchestration and dependency-based scheduling.
- **Cache Management System – LRU Cache Implementation** Jul 2025 – Aug 2025
| C++ | STL (list, unordered_map) | Data Structures | 🌐
 - Developed an LRU-based cache system using doubly linked list and hash map for efficient data access and eviction.
 - Implemented a two-tier architecture with primary cache and secondary storage, enabling automatic eviction and retrieval of least recently used data.
 - Integrated performance tracking (hit/miss rate), dynamic cache resizing, and an interactive command-line interface for real-time cache operations.
- **SocialBridge – Multi-Platform Social Media Management System** May 2026 – Present
| React | Node.js | MongoDB | REST APIs
 - Developed a unified dashboard for managing multiple social media accounts.
 - Built content publishing workflows for cross-platform post management.
 - Implemented analytics features to track engagement and content performance.
 - Designed campaign and collaborator management modules for marketing workflows.

SKILLS

- **Languages:** C++, JavaScript, SQL
- **Core CS:** DSA, OOP, DBMS, Operating Systems
- **Frontend & Mobile:** React.js, React Native, Expo
- **Backend & Databases:** Node.js, MongoDB, PostgreSQL, MySQL
- **Tools:** Git, GitHub, GitLab, AWS, VS Code

CERTIFICATIONS & TRAINING

- **C++ Essentials** – Cisco Networking Academy
- **Advanced Prompt Engineering** – Simplilearn

LEADERSHIP

- **Design & Web Operations Head, AstroClub (CEG)** – Directed the Design and Web Operations teams, overseeing event branding, website maintenance, and feature development.
